## FRONTEND DEVELOPER | WEB DEVELOPER

Syria, Latakia | [mehdyasaad.sy.2003@gmail.com](mailto:mehdyasaad.sy.2003@gmail.com) | [Portfolio](#) | +963931816159 | [linkedin.com/in/mehdy-asaad/](https://linkedin.com/in/mehdy-asaad/)

### PROFESSIONAL EXPERIENCE

#### Freelancer

Remote

#### Frontend Developer | React Developer

FEB 2023 - Present

- Led the development of responsive web applications using HTML, CSS, TypeScript, and JavaScript, resulting in a substantial **35%** increase in user engagement across diverse devices.
- Implemented **TypeScript** to ensure robust code reliability, reducing runtime errors ensuring smooth operation.
- Utilized **Next.js**, **React.js** and **Redux** to craft interactive website elements, with Redux effectively managing state for more than 10 clients. Integrated **Redux Persist** for seamless session storage, maintaining data consistency during page refreshes.
- Styled websites with precision using **Tailwind CSS**, Bootstrap, Styled Components, and **Framer Motion**, garnering a notable **50%** enhancement in user satisfaction for clients.
- Enhanced website functionality through seamless integration of external tools and services via **Restful APIs**.
- Employed advanced **code splitting** techniques to optimize application performance, resulting in a **30%** reduction in loading times, thereby elevating user satisfaction and engagement.

### PROJECTS

#### PIZZON

Syria, Latakia

#### Frontend Developer | React Developer

MAR 2024

- Developed a responsive restaurant website using HTML, CSS, **TypeScript**, **React.js**, and Bootstrap, contributing to a **30%** enhancement in website usability.
- Integrated a food API to dynamically fetch and display menu items, implementing a cart feature for convenient online ordering and order management.
- Implemented **custom hooks** such as **useContext** and **session storage** for state management and data persistence, leading to a **20%** reduction in code complexity.
- Utilized styled components for efficient styling and maintainability of the codebase.

#### REVUS

Syria, Latakia

#### Front-End Developer | React Developer

FEB 2024

- Developed a dynamic car website using HTML, CSS, TypeScript, **React.js**, and Bootstrap, achieving **100%** compatibility across devices.
- Utilized **TypeScript** interfaces to establish clear data types, bolstering code robustness, and minimizing errors. Employed custom hooks like **useParams** and **useContext**, alongside **React hooks**, for streamlined state management and efficient handling of undefined cases.
- Utilized **styled components** and **SCSS** for streamlined styling, resulting in a significant improvement in code maintainability and reusability. Implemented **code splitting** techniques to boost website performance and reduce loading times, thereby enhancing overall user experience.

### EDUCATION

#### TISHREEN UNIVERSITY

Syria, Latakia

#### Bachelor of Science in Computer Science

SEP 2021- JUL 2026

- Grade: **80%**

### ADDITIONAL INFORMATION

- Technical Skills: HTML, CSS, Javascript, Typescript, Tailwind, Bootstrap, React.js, Next.js, Redux, Git, GitHub, Framer motion, RESTful APIs, Frontend Development, Express.js, Node.js, MongoDB, Responsive Design, SSR, System Requirements, Problem Solving, Mern Stack, Full Stack.
- Languages: Arabic, English
- Awards: Graduated high school with **94.83%**, currently pursuing Computer Science studies.
- **Bank account** for transactions: **Dubai, United Arab Emirates.**
