## EDUCATION

**BACHELOR OF COMPUTER SCIENCE**          **September 2021 – July 2026**
Tishreen University                                                  Syria, Latakia

## EXPIERNCE

**Frontend React Developer**                              **Feb 2023 – Present**
**Freelancer**
- Developed responsive web applications using HTML, CSS, TypeScript, and JavaScript, ensuring optimal performance across various devices.
- Used TypeScript to strengthen code reliability by clearly defining data types, reducing errors during runtime and ensuring smooth operation.
- Implemented React and Redux to create interactive elements on the websites. Redux managed state effectively and also facilitated session storage, ensuring data consistency even when users refreshed the page.
- Styled the websites for a clean look and organized layout using Tailwind CSS and Styled Components.
- Enhanced website functionality by integrating external tools and services through Restful APIs.
- Implemented code splitting techniques to optimize application performance and reduce loading times, resulting in improved user satisfaction and engagement.
- Sped up website building with Bootstrap, making it quick and easy to create good-looking parts.

**Frontend Developer**                                       **March 2022 – Feb 2023**
**Startup company | Syria, Latakia**
- Completed frontend development training with a startup company during my university studies, gaining hands-on experience in HTML, CSS, JavaScript, and responsive design principles.

## PROJECTS

**React Developer**                                                  **Mar 2024**
**PIZZON   https://mehdy-h-asaad.github.io/PizzonRestaurant/**
- Employed HTML, CSS, and Bootstrap to establish the restaurant app's fundamental layout and style.
- Enhanced the app's appearance and consistency with Styled Components.
- Implemented robust state management using React's useContext and useParams hooks, alongside TypeScript's strict typing enforcement, ensuring seamless navigation, data retrieval, and enhanced code reliability.
- Integrated a RESTful API to fetch and update restaurant data dynamically, enabling features such as menu browsing, item selection, and cart management for a smooth user experience.

## SKILLS

HTML, HTML5, CSS, CSS3, JavaScript, Typescript, React.js, Redux, Bootstrap, Tailwind, SCSS, API Development, RESTful APIs, Git, GitHub, problem solving, Responsive design, Basic SQL,
**Languages**: Arabic, English.
